

KS2 Chess Club - SPORT FOR THE MIND

The St Winefride's KS2 Chess Club had their first session on the 26th April and the club will run to the 24th May. The Club is an enthusiastic group of Pawns (Starter Level) and Knights (Beginner Level). There are already a couple of players who are well their way to moving up to Bishops (Development level).

Studies have found that playing chess frequently builds self-esteem, improves concentration, tenacity and spatial awareness. This is indeed the case of the children in the Chess Club. Watching the children playing each week is an incredibly rewarding experience. They have grown in confidence and ability, and are very keen to share their expertise and knowledge.
