

The Wizard of Oz

On the 28th of November, all week we did crafts based on the Wizard of Oz. It was really fun and these are some of the pictures that were taken when we were making our characters!

This is the tin man group drawing and painting the background for their character. They also created some corny titles for the yummy treats that grew on the tree.

The lion group set up their display for the lion. We printed off pictures of the lion himself and also the man who played him. They got the costume off Sebastian and then they stuffed it with: newspaper, cotton balls, stuffing and bouncy balls to make him stand up better.

For the background, they drew the yellow brick road and some trees surrounding it. They also drew

the small castle in Emerald City.

The Dorothy group designed Dorothy and created the background of the Emerald City. They borrowed the dress from Bethanne and the dog (named Toto) from Jessica. They made a little replica of the house that Dorothy travelled in and also the one that the Wicked witch of the west got squashed under.

The Scarecrow group somehow managed to get hay all over the floor. But that just shows how creative they were. Once they had finished their design, it looked incredible.
