

Tuesday 17th October Dogs Trust Whole School Assembly

Dogs Trust Education Team has visited!

Dogs Trust believes that by educating the dog owners of tomorrow we can help to reduce the number of abandoned, stray and unwanted dogs in the future. We deliver free national curriculum linked workshops to increase awareness of responsible dog ownership and how to behave safely and appropriately around dogs.

On Tuesday 17th October, Sarah Saunders, visited **St Winefrides Catholic Voluntary Academy**. The pupils enjoyed learning the important messages on how to keep safe around dogs and Sarah hopes that, with the help of the Be Dog Smart leaflet, the pupils shared this information with their families. By teaching children to always ask the owner before they approach a dog and what to do if they are scared of a dog, will help keep our children safe. Sarah also ran a science workshop on how dogs use their senses and the importance of being a responsible dog owner. Sarah was really impressed with how polite and engaged all the pupils were.

For more information on our free workshops , staying safe or overcoming a fear of dogs please visit our website www.learnwithdogstrust.org.uk
