

## Warning Zone

Year 6 had a very exciting visit to *Warning Zone* in Leicester where we learnt about Internet Safety and how to stay safe in real life situations.

During the morning we learnt about Internet bullying and how to protect ourselves on-line. We learnt about checking our privacy settings and making sure that we only talked to people on-line, who we know and talk to face to face.

We also learned that if we are worried or unsure about something we should always tell a trusted adult.

During the afternoon, we learned how to stay safe when we are out and about; on the roads; near dangerous railways; by electricity sub-stations; in the home and near water.

We talked about the dangers we might meet and how to keep ourselves safe.
