

# WIZARD OF OZ

*Wizard of Oz creative week was the best week ever in our school life. However it was very challenging and in our group there were many arguments but at the end we all finished our statues and that is the most relief we ever had.*

*We also had to make table displays of our character and the actress/actor and the parents really enjoyed them. All the different groups displayed their facts a different way such as a washing line for the scarecrow, picture frames for Dorothy, hearts for tin man, poster for lion, potion boxes for witch.*

*This is our poster display that has where they found the tin man in the sweet forest and the yellow brick road weaved round the tree.*

*This is our finished display and this is full of hearts because all he wanted is a heart.*
