Evidence against the 5 key indicators:

The engagement of all pupils in regular physical activity – kick-starting healthy active lifestyles

- All pupils took part in fitness Friday, following different styles throughout the year.
- Increasing the amount of girls who take part in sports in the school had increased, particularly at break and lunch with the activities organised and led by the sports apprentice

The profile of PE and sport being raised across the school as a tool for whole school improvement

- The sport apprentice has raised the standards of sport across the years by supporting and leading sessions which they have had a specific skills.
- Having a range of outside companies to come in and run afterschool clubs or sessions for year groups on a specific sport such as fencing, fundamental skills, ultimate frisbee.
- Taking part in team Charnwood event and competitions.

Increased confidence, knowledge and skills of all staff in teaching PE and sport

- Sport apprentices to support and incrementally to lead PE sessions throughout the year.
- Provided staff the opportunities to take part in additional sport training.

Broader experience of a range of sports and activities offered to all pupils

- The sport funding has enabled us to continue offering clubs –ultimate frisbee, tri golf, dance, dodge ball, football, cheerleading, fencing. Every class in KS2 having the opportunities to try fencing. Ks1 had additional session in fundamental movement skills.
- In January we had the opportunity for Beth Dobbin to come in from sports for champions and talk about her experiences of competing in athletics. Giving the opportunities to complete some training with her.
- Some of year 5 took part in school sporting ambassadors, where they looked at the skills they needed to support and lead games in school.
- Leicester Tigers came to teach tag rugby to year 3 and 4 during the summer term.

Increased participation in competitive sport

- During the 2016/17 sports season we have competed in Team Charnwood event. Having children taking part in the cross country at Charnwood college.
- We have also competed in foot ball with St Clare’s at Loughborough.

Next Steps 2017-18

Provisional Funding: £17690

Target:

To use the School Sport Funding allocation in order to enhance the quality of teaching across the school ensuring that 85% of pupils are on track to meet age related expectations, therefore impacting on pupils' health and well-being, transferring confidence to other areas of the curriculum in order to meet standards in core areas.

Teaching and Learning

In relation to teaching we must aim to develop teacher confidence in identified areas with support from the sports apprentice.

Raise teacher confidence in making accurate judgements in relation to the assessment of skills in PE and identification of next steps.

Dinner time supervisor training to support the sports apprentice during lunchtime.

Health

We must aim more intensely at developing the health links within the funding. Conveying both the long and short term effects of activity and participation in sport has on the body.

Develop the opportunities for children to enhance their health and well-being in order to reach their performance potential.

Encourage increased physical activity during pupil's free time.

Engage children to take part in additional activities such as the daily mile and get going get activity schemes.

Enrichment

Identify the number of children who are accessing clubs outside of school and are therefore active beyond the school day.

Continue to enhance opportunities for children to take part in a variety of enrichment opportunities both in and out of school as well as be part of school teams and compete in different sporting events. Supplementing transport costs thereby enabling pupils to participate in sporting activities even if parents are unable to provide transport to venues.

Standards

Ensure that termly tracking in all classes and in all year groups is working towards the target of 85% of pupils being at age related expectations by the end of the year in PE.

Reflect on termly tracking in relation to club attendance and standards in learning to identify the positive impact physical activity is having on learners.

Encourage and target those children who are accessing pastoral support (confidence/self-esteem) to attend clubs in order to support positive self-image and raise mental health.
