

PE Spending 2015/16

This year the school decided to invest most of the PE allocation in funding a Sports Apprentice who would assist in PE lessons and lead structured sport in the playground at lunch and morning break. We appointed Dan Richardson who has been very successful in providing assistance in curriculum PE and most importantly expanding the activities at lunch and break. The impact has been a decrease in the sorts of incidents that traditionally took up lots teacher time, for instance disputes over football.

Dan also runs extra-curricular sports after school including football and multi-sports. Plans for the summer term are to include cricket and athletics. There have also been some competitions with other local schools.

Dan has contributed to our Focus on Fitness days which are held every term where the whole day is devoted to learning about healthy lifestyles. We have learned about nutrition, keeping teeth healthy and everyone took part in mass Zumba and Street Dance sessions.

We are continuing with our swimming programme which focuses on Year 3. During the summer term we take pupils from other years who have not yet managed to swim 25 metres.

We have used part of the funding to pay for new play equipment for our younger children and getting all children more active.

Funding

Sports Apprentice - £7500
