Sticky Knowledge about Materials

Glass is used for...

- windows in houses and cars to see through.
- mirrors – to see yourself – your reflection.

Metal is used for...

- strength in the construction of planes, cars and trains and especially tall buildings.

Wood is used for...

- doors – most doors are made from wood.
- furniture – most furniture is made of wood, often special wood.

Plastic is moulded or shaped...

- to form any shape from buckets to animal jelly casts.
